

We hope you and your loved ones are safe during this unprecedented time. As the COVID-19 pandemic continues to spread, we are implementing a series of additional measures to ensure the health of our staff, customers and parishioners.

As a business, we are still open and it is very much **BUSINESS AS USUAL**, our officers are available to take calls and advise, all be it on a reduced scale. We request visitors to the offices are kept to a minimum.

The Parish Rangers will continue to serve the community but will keep their distance from members of the public.

This will be the case until the UK Government requests otherwise.

We have a business continuity plan in place which will adapt to changes as they happen: otherwise, our office workday is the same, with opening hours remaining between

9.00 and 13.00 Monday to Friday.

If you have any questions, please do not hesitate to get in contact and we will answer to the best of our ability.

Thank you for your understanding and please stay safe.
